

Distance Learning Programs

In our effort to continue providing educational opportunities to children despite the COVID-19 our Education Specialist, Elizabeth Dinschel, will be hosting Distance Learning presentations through the Zoom platform for families with kids who are not able to attend school. These presentations are built for various age groups covering a variety of history and political topics.

Distance learning sessions will be interactive and hosted with Internet 2's Community Anchor Program on the Zoom platform. If you do not want your child to be seen, you can turn the camera off. You may log in as a class, or individual students can log in using the link that will be provided. Sessions will also be streamed from <https://www.facebook.com/PresidentialPrimarySourcesProject/>.
